

Cappa

Cappa Range

A uniquely European design manufactured in Spain , the Cappa Range has a style and elegance for the modern day office and hospitality environments.

A key benefit of the Cappa is it four variations allowing its visual compelling polypropylene shell to be fitted with four very different bases creating a chair suited to a variety of atmospheres.

The European designer's edge is evident in detail within the single polypropylene shell, strengthened with fibreglass making it a high resistant yet flexible structure. Taking into consideration user comfort the Cappa is fitted with an upholstered seat cushion with high density injected foam.

With a selection of four variations, Swivel Visitor on a 4 spoke spider base, 5 Star polished aluminium angled Base with Auto return, Four point and finally a Solid rod sled base, the Cappa is made for any chosen space.
