

# Fin

## **Multi-purpose 'sit-stand' stool for all workplaces**

Fin provides the ideal solution in all those areas of work where until now it has not been normally possible to sit down, but where standing up all the time is too tiring.

Because Fin takes away the stress from those who have to stand up to work, allowing them to concentrate on their performance at work rather than being distracted by the discomfort of standing up.

The comfort seat can be swivelled 20 degrees to both left and right. This creates flexibility and freedom, increasing the radius of operation, and so making it possible for the user to tackle every task in a dynamic way.

### FIN chair benefits

- The seat can be swivelled 20 degrees to both left and right. This creates flexibility and freedom
- The height of the seat can be adjusted easily. As soon as you sit down, you experience maximum sitting comfort as the gas spring gives gently, and cushions your weight.
- The comfort handles are built in the side sections of the washable seat. This provides a feeling of safety at all times, when sitting down, bending over, and standing up. Fin can be moved around very easily
- The wide comfort seat made from Soft Touch PU foam gives you a really comfortable sitting experience, even when you are sitting for a long time.
- The base and the aluminium column, inclined by 4 degrees, gives complete stability while moving and sitting

### Specifications

- Robust aluminium frame
- Soft-Touch PU Foam seat in black (2000)
- Dynamic seat 20° swivel
- Changeable glides (plastic & felt)
- Chair height range, 660-930mm
- Seat width, 450mm
- Seat depth, 150mm
- Maximum weight tolerance, 120kg
- Packaged weight: 8 kg
- Packaged volume: 0,09 m³

### Certifications & Standards

- DIN 68 877 German GS "safety tested" mark of conformity
- Quality Management System DIN EN ISO 9001
- Regulation EWG Nr. 1836/93 and Environmental
- Management System DIN ISO 14001
- ANSI/BIFMA X5.1 Certified Test Report 21207935\_001 TUV Rheinland
- Suitable for laboratory and hygiene-critical areas of all types and in particular for use in the health sector

### Hygienic quality

- Consistent hygienic design
- Washable PU Foam, low-maintenance and impervious to oil and disinfecting agents
- Cleaning / decontamination is quick
