

Heavy-Duty Seating

EQUIP

24 / 7
Contemporary Therapod

Built tough for 24/7 usage

Our program of heavy-duty seating has been developed to cover all ends of the seating spectrum.

Whilst each chair is designed to take-up to 200kg in user weight, they are unique in features and operation.

The 24/7 Contemporary Therapod chair includes the patented Therapod posture support system. Sturdy aluminium arms and base combine design-elements with strength.

Energy Series 1
High Back Executive Chair

Our Energy Series 1 High Back chair is as tough as they come. The back is made with a number of webbing straps which adjust slightly to the back-shape of the user.

The Galaxy 200 task chair is a compact chair, but fights well above its weight!

All chairs have components which have been reinforced to ensure that they meet the requirements of heavy-duty seating, and they incorporate dual-density seat foams to maximize comfort & pressure distribution.

Galaxy 200
Task Chair

The Energy Series 1 chair has the added endorsement of the AFRDI BS 5459 certification, which is the highest heavy-duty rating available in Australia....

All chairs are rated by manufacturer to 200kg loading.

Furniture and Fittings

When you purchase a Therapod product, you can be assured that many organizations have made a contribution towards ensuring it has been optimally designed and manufactured.

Quality Assurance

Therapod Seating Solutions is a Quality Assured manufacturer. This involves a wide range of disciplines including product design, manufacture, documentation, administration, repairs, implementation of procedures, as well as specific details which cover items as diverse as maintenance of machinery and brochure design.

Australian Made

Therapod Seating Solutions is a member of the Australian Made Campaign. With our 23,000 ft² manufacturing base in Melbourne, and a commitment to sourcing the majority of our components from Australian suppliers, we undertake to support local industry and the ongoing creation of labor opportunities.

Good Environmental Choice Australia

GECA have determined that a number of our product ranges satisfy all criteria to meet their stringent environmental assessment. GECA ensure that the full life-cycle of the product is considered from inception of design to how each of the components are recycled when the product has reached its natural conclusion. Manufacturing processes, emissions and component selection are all closely monitored.

Australian Furniture Research & Development Institute

AFRDI assess products to ensure that they meet the relevant Australian Standard. Chairs which have been accredited by AFRDI have had their ergonomic and durability credentials thoroughly measured. Level 6 certification indicates that a product is suitable for use in commercial applications, and the BS 5459 standard states that a product can be used for *extreme* and heavy-duty usage.
