Therapod – the world’s most adjustable chair.

Incorporating the patented adjustable posture-support system, Therapod has been accredited by AFRDI to the rating of Level 6 – Heavy Duty Commercial Usage.

As the chair can be specifically set-up to suit the back shape of each individual user, it is ideal for sufferers of pre-existing back-pain.

More importantly, Therapod is now widely used as a preventative weapon against poor posture.

A range of sizes and options ensures that Therapod can be personalized to meet the needs of each user.

Our V-TEQ seat utilizes visco-elastic foam.

This foam – originally developed by NASA – is an open-cell structure which allows pressure and temperature to be evenly distributed throughout the seat, removing ‘hot-spots’ from beneath the user.

- ✓ 150kg Weight Limit
- ✓ Rated for 24/7 usage
- ✓ Lightweight mechanism option
- ✓ Ten Year Warranty
- ✓ V-TEQ Seat Foam
- ✓ Adjustable posture-support system
- ✓ Australian designed and manufactured
